iVideosongs has licensed full rights to its songs from BMG Music Publishing, EMI Music Publishing, Sony/ATV Music Publishing, Universal Music Publishing Group, Warner/Chappell Music and also many secondary and tertiary publishers. This allows the company to provide complete and accurate instructional titles, presented exactly as they were originally written and performed. The iVideosongs titles are primarily for electric and acoustic guitarists, but titles for bass, keyboards and drums are also included in the catalog.

iVideosongs offers three kinds of music instruction content. Tutorials designed to improve basic to advanced skills are available free of charge. Complete and accurate songs, instructed by professional music teachers cost \$4.99. Complete and accurate songs, taught by the original artists who wrote, performed and/or produced them, cost \$9.99.

iVideosongs customers can choose a skill level and genre, and then download the high- def titles to their personal computer, iPod or other device. Each song title is presented in chapter format, so aspiring musicians learn the introduction, verse, chorus, bridge, outro and other elements in bite-size pieces and at their own pace. Each title also includes a master performance so customers can compare their progress against the song, and tablature notation to aid in learning. Titles featuring artists also include an interview segment, where they reveal the inspiration and influences that went into the creation of the song.

iVideosongs launched the beta of its service this past January 29, 2008.
