The Most Technically Advanced Abdominal and BT Trainers Available

PR9.NET March 26, 2008 - Irvine Ayrshire – Fitness-Force.com (<http://www.fitness-force.com>) is quickly becoming the leading provider within the UK of specialist fitness products and weight loss supplements and solutions. One of their recent offerings to consumers is Slendertone, the most technologically advanced abdominal and BT trainers in the world today.

Slendertone products have gained the reputation of being the 'Gold Standard' in EMS based Body Toning Solutions. They deliver fantastic results and have scientific proof to back it up!

Slendertone products have shown the ability to improve the owner's body shape, body firmness, abdominal endurance and average muscle strength. And, the greatest thing about this line of products is how fast they produce results.

"At Fitness-Force.com (<http://www.fitness-force.com>), we pride ourselves in offering the Slendertone range of Body Toning Ab Belts and BT Trainers at prices that are affordable for the consumer," said one of the company founders.

Slendertone products are offered for both men and women and are considered the 'gold standard' of electrical stimulation devices for body toning. Fitness-Force.com provides free shipping within the UK for all Slendertone purchases.

Fitness-Force.com also provides customers with a full range of specialty fitness and weight loss products to consumers in the UK and around the world and offers regular product specials on their company website.
