

New CV Writing And Career Services Website

Professional CV Writing Services, March 26, 2008

URL: <http://www.pr9.net/business/services/7700march.html>

Professional CV Writing Services Has Launched a New Website Featuring its Full Range of Career Related Services to Cater for the Needs of its UK and International Clients. The Site Will Feature Career Related News, Advice and Articles.

PR9.NET March 26, 2008 - London, United Kingdom - Professional CV Writing Services is one of the UK's foremost CV and career consultancy. Based in London, we provide a range of professional career related services including professional resumes, cover letters and career coaching. We also help candidates with job application forms, helping them compile effective supporting statements and answer taxing competency questions. We have a UK and international client base and in the last ten years have helped place hundreds of job seekers into fulfilling work, both within the United Kingdom and throughout the world: in Europe, Asia, Middle East, Africa and North America.

The company has set very high standards in delivering its range of professional services with the focus on total customer satisfaction. Our corporate philosophy and core values are based on this same ethos which over the years has developed a large client base of loyal customers.

Professional CV Writing Services has played a leading role in overhauling the old style CV format traditionally used in the UK. This style has been criticised by employers and recruitment agencies for being too inflexible, often failing to express candidates' true personalities and abilities. We have been instrumental in replacing the traditional format with a range of flexible and popular formats designed for customizing individual profiles powerfully and professionally.

Our CV formats cater for candidates with all levels of experience and backgrounds: our Standard CV format is designed for people with limited work experience; the Tailored CV format caters for professionals with work experience who wish to either pursue career aspirations within existing fields or divert to other fields. The company also offer a discounted service catering for the specific needs of recent graduates and a similar service is available for undergraduates. Our series of quality Executive CVs cater for managers, from junior to senior executives who wish to highlight achievements within their chosen vocations.

The Company also facilitates career workshops designed to empower jobseekers with the tools to search and compete for jobs effectively. We run six workshops including CV writing, job application forms, interview techniques, stress management in the workplace, personality tests and job searching techniques.
