"Designing Your Timber Frame Home"
Log & Timber Home Show, Harrisburg, PA
Saturday, April 19, 2008 at 5:00 PM

Jeremy Bonin, principal partner of Bonin Architects & Associates, is an award-winning architect and the author of TIMBER FRAMES: Designing Your Custom Home, (available on Amazon.com) an invaluable tool to help homeowners become fully involved in the design of their new timber frame or post and beam home. Jeremy, a LEED Accredited Professional, has a special interest in sustainable design, focusing on timber framing and structural insulated panels (SIPs) while incorporating other sustainable (green) energy practices, including geo-thermal, solar, radiant heat, and energy-efficient foundation systems.

The Log & Timber Home Show features manufacturers of log and timber frame homes, as well as suppliers of building products, home decor, furniture, windows and doors, taxidermy, lighting, and wood care products. The shows are designed for every level of log and timber home enthusiast—from the novice to the seasoned veteran. In addition to workshops throughout the three days, the Log & Timber Home Show features personal attendee badges and show cards and The Log & Timber Home Bookstore which offers books specific to designing, building, and maintaining log and timber frame homes.

Bonin Architects & Associates is exhibiting in Booth #525 and welcomes you to stop by with your sketches and ideas for your structural insulated panel and/or timber frame home. For free admission tickets, show times, and directions, call or visit our website at boninarchitects.com.
