*Dallas' premier cosmetic treatment center offers special on Artefill*

PR9.NET April 18, 2008 - Dallas, Texas – Dermatology Consultants (<http://www.dallasderm.com>) announced today a special Mother's Day offering with ArteFill®, a permanent facial filler that treats the lines on the outside of the mouth and chin.

For more than 30 years, Dermatology Consultants has been Dallas' premier location for cosmetic procedures and treatments. Clients from Dallas and from all over the United States have benefited from the anti-aging procedures and treatments offered by experienced doctors and Skin Care Specialists.

Trudi Gummelt, a Skin Care Specialist at Dermatology Consultants, said she hopes everyone interested in anti-aging procedures will take advantage of the Mother's Day ArteFill® Special.

"We would like those who have had a cosmetic procedure in the past and those who are contemplating a [cosmetic] procedure to come visit our staff and doctors," said Gummelt. "ArteFill® helps those deep lines that run from the side of your nose to the corner of your mouth, commonly referred to as smile lines. The procedure offers longer lasting results than other cosmetic filler injections - as much as five years."

Trudi hopes the Mother's Day Special will attract those individuals who might be a bit nervous about a cosmetic procedure.

"I think there are many men and women out there who have a misconception of what's involved in a treatment or just plain fearful of the unknown," said Gummelt. "We're here to explain the process. All of our doctors and staff have years of experience and we insist upon a friendly and nurturing atmosphere."
