

Affordable Service Incorporated, ASI goes online- Providing a non insurance approach to reducing health care coverage

ASI Incorporated, April 24, 2008

URL: <http://www.pr9.net/health/insurance/7954april.html>

ASI's premier savings plan provides medical savings benefits for people with no health insurance coverage, people who cannot qualify for health insurance coverage because of pre-existing conditions such as pregnancy, diabetes, heart disease, stroke, cancer and any elective or cosmetic procedures; or simply people who cannot afford health insurance coverage; by offering individuals and families with access to a network of doctors, dentists, and hospitals that provide health services at a discounted rate. ASI's premier saving plan will also work well as a supplement for someone that already has health insurance coverage.

PR9.NET April 24, 2008 - Houston, TX – ASI –Affordable Service Incorporated announces the launch of its non insurance healthcare coverage website that would provide an alternative solution to the astounding problem of skyrocketing insurance costs by offering individuals and families with access to a network of doctors, dentists, and hospitals that provide health services at a discounted rate.

"We decided to take our services online in order to provide medical savings benefits for all Americans with no health insurance coverage, people who cannot qualify for health insurance coverage because of pre-existing conditions such as pregnancy, diabetes, heart disease, stroke, cancer and any elective or cosmetic procedures; or simply people who cannot afford health insurance coverage; by offering individuals and families with access to a network of doctors, dentists, and hospitals that provide health services at a discounted rate, Towolawi"

According to the United States Department of Health and Human Services, more Americans are finding it difficult to get health insurance coverage. The reason for this healthcare crisis is because of the high insurance premium that is making health coverage unobtainable to many American.

In view of this development, ASI's has developed a premier health care savings plan that would provide solutions to the high insurance cost by offering people with no health insurance coverage, people who cannot qualify for health insurance coverage because of pre-existing conditions such as pregnancy, diabetes, heart disease, stroke, cancer and any elective or cosmetic procedures; or simply people who cannot afford health insurance coverage with access to a network of doctors, dentists, and hospitals that provide health services at a discounted rate.

ASI's Premier Health care Savings Plan provides a unique health savings benefits that comes with six health benefits, two policies and one members-only benefit. The member only benefit is particularly unique because members are given a free cell phone plus 250 free minutes every month by GoVois wireless. GoVios offers the lowest Priced National Pre-paid calling plan in America with minute options as low as \$19.95 for 250 minutes. GoVios is not a part of ASI but is an independent cell phone company that provides service to ASI members and the general public alike.

With health insurance going out of the reach of many Americans, Towolawi realized that there is the need to develop a non insurance approach to get health care coverage to many American who are uninsured. Towolawi, believe that ASI's premier Health Care savings plan will afford individuals and families the much needed health services at a discounted rate.

ASI do not sell insurance coverage but provides solutions to the astounding high insurance premium by offering individuals and families with access to a network of doctors, dentists, and hospitals that provide health services at a discounted rate.
