Micrositez SEO Studio Celebrates Launch of 'Pay As You Go SEO'

PR9.NET April 25, 2008 - Glasgow, Scotland, UK - According to Micrositez owner Scot Crone "Search engine optimisation is now as essential as having a website itself"... Mr Crone goes on to suggest that "Many online businesses want some sort of seo to promote their website but they don't necessarily want to be locked into annual contracts or want to have to pay monthly fees".

As a result of this apparent wind of change in the minds of those buying seo services Micrositez SEO studio has launched a brand new 'Pay as You Go SEO' service. Customers looking for search engine optimisation aka search engine optimization can now arrange 'pay as you go seo' from as little as £100.

In today's customer savvy internet marketing environment many people are disillusioned with seo companies charging monthly fees and even locking clients into contracts. Many also feel let down by promises of "First Page Guarantees" and so on. Mr Crone of Micrositez says "We won't flannel you with false promises... but we can help you promote your website in an ethical manner with starter prices which we think anyone can afford".

The launch of the new Micrositez 'Pay as You Go SEO' service heralds a new perspective for small to mid sized businesses and online retailers. "Small companies with a limited budget can now find ethical and affordable seo without monthly costs at entry level prices suitable even for new startups" says Micrositez owner Scot Crone. This no nonsense approach to seo will be regarded by many as a welcome change in the increasingly confusing and expensive field of internet marketing, seo and website promotion.
