"HMS" Embarks On New Mission With Long History In Oceanographic Project Management And Support.

PR9.NET May 06, 2008 - MARSTONS MILLS, Mass. – Hegg Marine Solutions (www.HeggMarine.com), a newly established marine services business, announced today their foray into the competitive industry of Oceanographic Project Management and Site Support. Hegg Marine Solutions primary business will include marine data acquisition, sonar system integration, project management, consultation, training and site support. HMS's mission is to support, maintain and manage client needs in their respective Marine Industry endeavors.

"I'm really looking forward to continue working with and supporting the global requirements of ocean survey professionals and their adapting needs", states Fred Hegg, the founder and President of HMS. "The HMS business model is entirely about creating, maintaining and supporting client relationships as well as sustaining mutually rewarding relationships with all industry professionals in the oceanographic realm. It is through these connections that we help our customers by providing the best practices, products and services."

Hegg Marine Solutions is owned and operated by Fred Hegg, a leading industry professional whom has been involved with the research, development, engineering, manufacturing, integration and sales of underwater acoustic products. Prior to starting HMS, Mr. Hegg was employed for over 25 years at Teledyne Benthos, Inc., formerly Benthos, Inc., and Datasonics, Inc. His vast work experience and intricate knowledge of specialized facets of marine science have been well documented and published in industry-specific conferences. Throughout his career, Hegg has traveled extensively to work with clients, focusing the last 15 years in Asia and Europe.

"In starting your own business, passion is what drives you to succeed. The technology in oceanographic research is exciting and rapidly advancing. My job is to harness new technology with my vast experience and hands-on skills. Combined, that is what drives my passion." said Hegg.

Hegg Marine Solutions is defining its niche by merging the basics of engineering with new technologies, including software and hardware, to help further advance solutions for its clients. HMS stands behind the concept that there may be more than one solution for their clients and thus integrates best in class technology and services with experience to provide the intended results for success.

Hegg Marine is a member of The Hydrographic Society of America (THSOA) and The Marine & Oceanographic Technology Network (MOTN).
