Save your business money with an Online Voicemail System.

PR9.NET May 07, 2008 - Canton, MI - In a very competitive world we have now, more and more entrepreneurs are using a professional voicemail system that helps their business to stand out. These business owners want to impress their customers with enhanced image using a professional voice talent, and 101Voicemail System is designed to provide customers just that. Customers can now have a professional voicemail service which can help them grow revenues and increase savings. The first impression of your company is made through your recorded announcement. This becomes your image and this is how your company is presented to the market.

"We wanted to come up with a voicemail system that will help the customers stretch their marketing budget with an excellent quality of voicemail system" said Caleb Serna, 101Voicemail's Account Manager. 101Voicemail has the cheapest rate that delivers professional and clear voice quality. At a very affordable price of \$8.50, subscribers can stay connected 24/7 wherever they are and never miss an important call. 101Voicemail provides customers an efficient and convenient way of managing their voicemail. 101Voicemail System works with its business owners customers by building credibility through clarity and professionalism which are evident when customers record their own greeting.

Customers can easily sign up and try the 101Voicemail System free trial, for seven days. The Voicemail Plan gives any organization a 'phone system' that can handle all incoming calls and messages, other features include:

- Online Control Panel will help you manage, organize and review your message transactions in your account.
- Voicemail messages are automatically forwarded to one or more Email addresses. Accessible wherever there is an Internet connection that allows you to stay in contact with the calls wherever you are, and never miss an important call.
- Users can customize their greeting by recording a personalized greeting.
- Customers can receive messages up to 10 minutes long and receive notifications via Email, pagers and mobile phones.

In the business world today, entrepreneurs are continuously seeking for the best way to promote their organizations. Adding a voicemail service that is efficient, cost effective and product value based on innovation, 101Voicemail gives your business the 'competitive edge' with that 'best impression.
