PLS continues to implement new methods and services to daily business practices. PLS now re-lamps NEC MT60LP & GT60LP projector lamp modules!

PR9.NET May 05, 2008 - Bohemia, NY – Projector Lamp Services, LLC (PLS), continues to implement new methods and services to daily business practices. In an effort to expand upon PLS's commitment to meeting the needs of their growing client base, PLS now re-lamps NEC MT60LP & GT60LP projector lamp modules!

By re-lamping, customers are essentially re-newing their projector lamp. PLS goes to great lengths to ensure quality, reliability and savings to existing clients and potential customers. About 95% of the lamps PLS receives can be serviced, which now includes the NEC MT60LP series, which fits the MT860, MT1060 and MT1065 projectors, as well as the GT60LP, which fits the GT5000 and GT6000 projectors. The NEC MT60LP & GT60LP will also be recycled under the same strict guidelines followed by other recycled lamps.

Projector Lamp Services, LLC, established in May 2007, provides re-lamping services for the projection display industry. PLS has developed a process that allows front and rear projector light sources to be remanufactured at a reduced cost without compromising lifetime or performance. PLS also offers a no charge projector lamp recycling service. The PLS Projector Lamp Recycling Center, focuses on reducing waste and environmental mercury contamination from the lamps found in front and rear projectors. We are dedicated to encouraging A/V users to "think green" when it comes to replacement projector lamps.

For more information about PLS relamping and recycling, call +1(631)244- 0051 or visit our NEW website at www.relampit.com

###

About Projector Lamp Services, LLC

Projector Lamp Services provides re-lamping services for the projection display industry. This industry has seen decreased manufacturing costs in all but one area, the lamp. Therefore, PLS has addressed this concern by developing a process that allows front and rear projector light sources to be remanufactured at a reduced cost without compromising lifetime or performance. PLS also offers a no charge projector lamp recycling service. The PLS Projector Lamp Recycling Center, focuses on reducing waste and environmental mercury contamination from the lamps found in front and rear projectors. We are dedicated to encouraging A/V users to "think green" when it comes to replacement projector lamps.
