*Using a unique system, TreasureOnNet has created an online scratch card gaming site that combines real winning odds with an absolutely fair game.*

PR9.NET May 14, 2008 - Nicosia, Cyprus - www.TreasureOnNet.com is out to change the shady reputation of online gambling. While horror stories abound, of players who were cheated out of their deposits or of sites that "fix" the games, TreasureOnNet.com believes that online gaming should be fair, fun, and winnable.

TreasureOnNet is a scratch card gaming site. The games here are unlike those at more traditional online casino sites. At TreasureOnNet, players select a game to try, and the system will then create a virtual scratch card for that game. This "write 'em as you play 'em" system gives TreasureOnNet two big advantages in the online gaming world.

First, every scratch card at www.TreasureOnNet.com is a potential winner, with one of its game's winning combinations hidden under the scratch of section. And second, related to this, TreasureOnNet.com gives its players the best odds of winning real money of any scratch card site online.

That's right: players at TreasureOnNet can win real jackpots, paying out real money, and have better odds than other sites. This exciting development is available only at TreasureOnNet, due to its unique gaming software package. TreasureOnNet is proud to offer its players this combination of fairness and winning odds, and to do its part to improve the image of the online gaming industry.
