PR9.NET June 05, 2008 - Tampa, Florida – DisputeSuite.com's affordable credit repair software is perfect for Mortgage Brokers. DisputeSuite's software allows Mortgage Brokers to run their own credit repair business. It is ideal for Mortgage Brokers looking to help clients with credit repair in order to close more deals and generate additional money.

90 million borrowers have bad credit

Excellent credit is crucial in today's credit crunched economy. If you are in the Mortgage Industry, that fact is apparent. Subprime is gone with the wind, ARM's are re-pricing and mortgages are getting tougher to close. To make matters even worse, clients with bad credit are nearly impossible to get approved. With an estimated 90 million Americans suffering from bad credit, finding approved borrowers is becoming harder and harder. What if Brokers did not have to turn bad credit clients away? What if they could perform credit repair for their borrowers--turning subprime into "A-paper" loans?

Operating your own credit repair business is easy

DisputeSuite provides all the tools needed to start and run your own credit repair business. Credit repair businesses work with clients to determine which credit report items are inaccurate or misleading and then mail out dispute letters to get the information corrected or deleted. Removing bad credit accounts is the fastest way to boost a borrower's credit score. Often only fixing a few negative items results in 100+ point increase in credit scores, enabling Mortgage Brokers to close more loans. DisputeSuite makes it easy, with everything needed for credit repair.

Add a new income stream and close more loans

Charging for credit repair is an excellent way for Mortgage Brokers to add additional income—and they don't even have to pay for leads! Mortgage Brokers can take their bad credit borrowers and sign them up for credit repair, with a per client fee of \$200 -- \$1000. After they repair their credit, they can put borrowers in the loan of choice. This allows mortgage brokers to generate income from the credit repair service and the loan!
