*A new Usenet provider is tying its shoes and stretching, anticipating to hit the ground running into an already large and competitive market.*

PR9.NET June 19, 2008 - Atlanta, GA - Before you invest your money in another gB of data, check out the expertise and the pricing options offered by UseNetVault, LLC. Dwight Ringdahl, founder and CEO of UseNetVault, LLC, has pulled together all the important aspects for the usenet customer offering 20 connections on all accounts, 128 bit secure socket layers (SSL), over 120 days retention in alt.bin groups and over 3 years in all others. The company has encompassed 68,000+ newsgroups, over a 99.8% completion rate on downloads and offers USA and European servers. In addition to these, UseNetVault, LLC stands out from other providers through its outstanding pricing, unique data packages and 24/7 live customer service.

No newcomer to the usenet, Mr. Ringdahl has created a unique way of billing for the usenet. Not only does UseNetVault, LLC offer the traditional monthly billing plans from 5gB (\$4.55) to unlimited (\$14.55), it also has introduced pooled accounts where a customer can purchase a number of gB for a set dollar amount and use them until they are depleted or for a period of 6 or 12 months, whichever comes first. For example, their largest plan is 300gB for \$79.55 - good for 12 months.

According to Mr. Ringdahl, "Our team here at UseNetVault, LLC is so confident that our customers will be pleased with our service, we are offering a free trial that consist of 2 days or 2gb of access, whichever comes first." To access this promotion and learn more about the company's service, visit [www.UseNetVault.com](http://www.UseNetVault.com).

Dwight Ringdahl, founder of WebUseNet Corp. which was the world's largest usenet provider from 1998-2004, has decided to come out of retirement and return to the usenet world. During his tenure at WebUseNet, Mr. Ringdahl acquired and assembled several companies to create a complete usenet provider servicing retail and commercial accounts. His expertise was recognized as he was voted one of ComputerWorld's Top 100 IT Professionals and lectured at their annual conference. Mr. Ringdahl's usenet knowledge and entrepreneurial experience, coupled with an outstanding company team makes UseNetVault, LLC the choice for all usenet customers.

###

## About UseNetVault, LLC

Offering both monthly subscription accounts as well as slotted accounts, known as "pooled" or "bucket" accounts, allowing users to get prepaid accounts based on his/her anticipated bandwidth usage; these slotted accounts are valid for up to 12 months.

What we can expect:

- \* 100+ days binary retention
- \* SSL enabled for no extra cost
- \* 20 concurrent connections on all accounts
- \* Live support 24/7
- \* 100, 000+ available newsgroups
- \* and over 99.8% completion rate

Most conveniently, UseNetVault will also be accepting PayPal as a payment method (along with all major credit cards). This comes as a huge relief to many users! Very few news providers accept PayPal, despite the large demand, due to PP's unwillingness work with usenet-related groups.
