PR9.NET July 02, 2008 - ALPHARETTA, Ga. – Five great new songs are being added to the growing iVideosongs ([www.ivideosongs.com](http://www.ivideosongs.com)) catalog this week, spanning classic rockers from the 60s, Pretty Woman and Born to Be Wild, through the recent hit, Float On by indie act, Modest Mouse. Also joining the catalog this week are Sheryl Crow's version of the torch song rocker, The First Cut is the Deepest and the 70's radio staple, Bread's Baby I'm a Want You. Each of the songs features instruction by the expert staff at iVideosongs.

The driving guitar intro of Pretty Woman is burned into the collective consciousness of generations of music fans. Born to Be Wild is part of the soundtrack for millions of real and would be rebels. Both occupy iconic spots in 1960s American music. Bread released Baby I'm A Want You in 1972, and it went on to be one of the most popular hits on the radio and on the song lists of wedding bands everywhere. These hits are joined by Sheryl Crow's version of The First Cut is the Deepest, memorable for her rhythmic guitar, as well as the song that brought fame to Modest Mouse, Float On.

iVideosongs is the new service that shows aspiring musicians everywhere how to play their favorite songs completely and accurately, with the instruction provided by the original artists who wrote and performed them, and also from expert instructors.

iVideosongs has licensed full rights to its songs from BMG Music Publishing, EMI Music Publishing, Sony/ATV Music Publishing, Universal Music Publishing Group, Warner/Chappell Music and also many secondary and tertiary publishers. This allows the company to provide complete and accurate instructional titles, presented exactly as they were originally written and performed. The iVideosongs titles are primarily for electric and acoustic guitarists, but titles for bass, keyboards and drums are also included in the catalog.

iVideosongs offers three kinds of music instruction content. Tutorials designed to improve basic to advanced skills are available free of charge. Complete and accurate songs, instructed by professional music teachers cost \$4.99. Complete and accurate songs, taught by the original artists who wrote, performed and/or produced them, cost \$9.99.

iVideosongs customers can choose a skill level and genre, and then download the high- def titles to their personal computer, iPod or other device. Each song title is presented in chapter format, so aspiring musicians learn the introduction, verse, chorus, bridge, outro and other elements in bite-size pieces and at their own pace. Each title also includes a master performance so customers can compare their progress against the song, and tablature notation to aid in learning. Titles featuring artists also include an interview segment, where they reveal the inspiration and influences that went into the creation of the song.

iVideosongs launched the beta of its service this past January 29, 2008.
